If it is not in RHEL it would be an issue for CentOS. Does Linux Standard Base (LSB) address your issues?

rpm -qai redhat-lsb* Name : redhat-lsb-printing Relocations: (not relocatable) Version : 4.0 Vendor: CentOS Release : 3.el6.centos Build Date: Sun 20 Nov 2011 04:46:24 PM EST Install Date: Sat 21 Jan 2012 06:04:24 PM EST Build Host: c6b5.bsys.dev.centos.org Group : System Environment/Base Source RPM: redhat-lsb-4.0-3.el6.centos.src.rpm Size : 0 License: GPL Signature : RSA/SHA1, Mon 21 Nov 2011 07:54:40 PM EST, Key ID 0946fca2c105b9de Packager : CentOS BuildSystem <http://bugs.centos.org> URL : http://www.linuxfoundation.org/collaborate/workgroups/lsb Summary : LSB printing libraries support for CentOS Description : The Linux Standard Base (LSB) Printing Specifications define components that are required to be present on an LSB conforming system. Name : redhat-lsb Relocations: (not relocatable) Version : 4.0 Vendor: CentOS Release : 3.el6.centos Build Date: Sun 20 Nov 2011 04:46:24 PM EST Install Date: Sat 21 Jan 2012 06:06:23 PM EST Build Host: c6b5.bsys.dev.centos.org Group : System Environment/Base Source RPM: redhat-lsb-4.0-3.el6.centos.src.rpm Size : 22822 License: GPL Signature : RSA/SHA1, Mon 21 Nov 2011 07:54:35 PM EST, Key ID 0946fca2c105b9de Packager : CentOS BuildSystem <http://bugs.centos.org> URL : http://www.linuxfoundation.org/collaborate/workgroups/lsb Summary : LSB base libraries support for CentOS Description : The Linux Standard Base (LSB) is an attempt to develop a set of standards that will increase compatibility among Linux distributions. The redhat-lsb package provides utilities needed for LSB Compliant Applications. It also contains requirements that will ensure that all components required by the LSB that are provided by CentOS are installed on the system. Name : redhat-lsb-graphics Relocations: (not relocatable) Version : 4.0 Vendor: CentOS Release : 3.el6.centos Build Date: Sun 20 Nov 2011 04:46:24 PM EST Install Date: Sat 21 Jan 2012 06:03:24 PM EST Build Host: c6b5.bsys.dev.centos.org Group : System Environment/Base Source RPM: redhat-lsb-4.0-3.el6.centos.src.rpm Size : 0 License: GPL Signature : RSA/SHA1, Mon 21 Nov 2011 07:54:37 PM EST, Key ID 0946fca2c105b9de Packager : CentOS BuildSystem <http://bugs.centos.org> URL : http://www.linuxfoundation.org/collaborate/workgroups/lsb Summary : LSB graphics libraries support for CentOS Description : The Linux Standard Base (LSB) Graphics Specifications define components that are required to be present on an LSB conforming system.
